Vacant Positions

Purpose Use this procedure to view vacant positions within an organizational unit.

Trigger Perform this procedure when viewing vacant positions in an organizational unit.

Prerequisites • The position must exist.

• The position's Vacancy (1007) infotype has been updated with the correct status.

End User Roles In order to perform this transaction you must be assigned the following role:

Personnel Administration Inquirer/Processor/Supervisor

Change History				
Date	Date Change Description			
08/17/2009	New procedure created.			

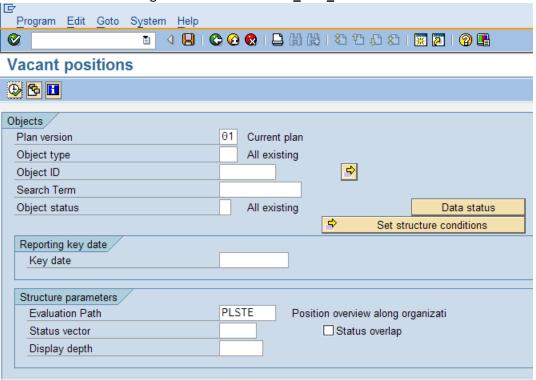

Transaction Code S_AHR_61016509

The results for this report are generated from the Position's Vacancy (1007) infotype. See OLQR User Procedure, Position Maintain Vacancy for assistance. When searching by Structure Search, use the Gelect subtree option found on the bottom of the Choose Organizational Unit window. Once your Business Area or Personnel Area has been selected, the Select subtree option will select all your applicable options from that subtree. | Choose Organizational Unit | Position | Pos

Procedure

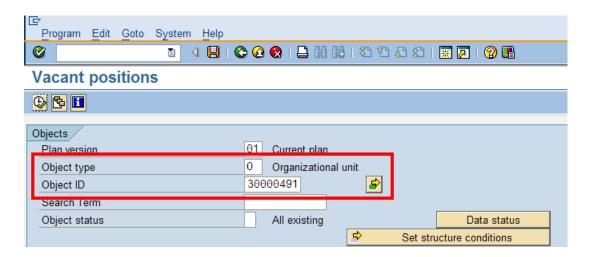

1. Start the transaction using the transaction code **S_AHR_61016509**.

2. In the Objects section, complete the following fields:
